Projects & Initiatives

Carnegie Mellon CS Scholars, Pittsburgh, PA

Jun'26 - Jul'26

Machine Learning Research Project: Predicting AI vs. Human Tutoring Preferences

- Designed and fielded a 200+ respondent survey to investigate student learning preferences, then engineered features using one-hot encoding to prepare the data for modeling.
- Built and evaluated three classification models to predict AI vs. human tutoring preference, identifying logistic regression as the top performer using F1 score, accuracy, MCC, and AUC.
- Translated technical modeling results into a presentation delivered to the full CMU Pre-College cohort.

Music Mentors | Peer Mentorship Initiative, Dublin, OH

Feb'26 - Present

President

- Revived a dormant peer-mentorship program from the ground up, rebuilding its leadership structure and mentor-matching system after a 2-year lapse.
- Forging partnerships with local middle schools to grow the initiative's reach and mentee base.
